AUDIO & VIDEO ENGINEER / MUSICIAN / CREATIVE TECHNOLOGIST

steffen sennert

AUDIO & VIDEO ENGINEER / MUSICIAN / CREATIVE TECHNOLOGIST

BIOGRAPHY

Steffen Sennert is a Berlin-based audio and video engineer, musician, and inventor with a diverse approach to his craft. His expertise spans a wide range of disciplines, including professional audio engineering, and electronic and software development, all centered around audio-visual experiences and performances.

A key focus of Steffen's work is the development of new, innovative electronic music instruments and controllers. He strives to create unique interfaces and playgrounds for intuitive artistic expression, empowering musicians and artists to explore new dimensions of creativity, blending cutting-edge technology with an artistic sensibility.
